

CONTAINERIZED LIVING HOUSE

**VSY Pre-Fabricated House**

**\*SAFETY**

VSY has the abundant experience of fabrication of containerized module,

At Beginning, The container modules are widely used for Oil&Gas Industries.

Therefore, The VSY products are designed and fabricated as per the top safety guide line.

As of now, VSY products are widely used for offshore and onshore for different engineering demands.

TOP SAFETY is still the most important feature, to provide all users the safe, clean, comfortable living environment.

**\*LOW CONSTRUCTION**

VSY is providing the mobile but highly integration products to the user.

It means the product is a turn-key solution for each client.

It does not required the strengthen foundation to support the structure body, and can be stacked maximum up to 8 layer, a containerized building with low construction by the methods of specialized fixations.

By means of advanced technology. Few simple connection steps: drainage ,power and water before the house using.

**\*COMFORTABLE**

HVAC systems is equipped on each VSY containerized living module.

It can support a higher standard for living in the module.

By the advanced technology of **passive house**, It can provide the user a lower energy consuming environment, which can be used from -45 °C up to +45°C

Meanwhile, Plenty of Environ-Friendly material is using at the VSY containerized living module. To avoid the toxic and harmful emissions from the material itself.

ART. NO.	DESCRIPTION	DIMENSIONS(LWH)	REMARK
A36	16SQM LIVING MODULE	6m*3m*3m	A/T/L
A312	32SQM LIVING MODULE	12m*3m*3m	A/T/L/K
B33	9SQM BALCONY	3m*3m*3m	FITTED WITH A36/A312
